

Application No. 10/721,730
Amendment dated November 16, 2005
Reply to Office Action of August 31, 2005

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1.-15. (Cancelled)

16. (Currently Amended) An image data processing apparatus adapted to receive code data and analyze said received code data to generate image data, said image data processing apparatus comprising:

an analyzer ~~adapted~~ configured to analyze said received code data to generate said image data;

a generator ~~adapted~~ configured to generate additional data based on said received code data; and

a synthesizer ~~adapted~~ configured to synthesize said additional data with said image data and to output said synthesized data.

17. (Original) An image data processing apparatus in accordance with claim 16,

wherein said generator obtains coordinate information from the received code data and generates additional data based on said coordinate information.

18. (Original) An image data processing apparatus as claimed in claim 17, wherein said received code data is outline font data representing contours of characters.

19.-33. (Cancelled)

34. (Original) An image data processing method comprising the steps of: receiving code data;

Application No. 10/721,730
Amendment dated November 16, 2005
Reply to Office Action of August 31, 2005

analyzing said received code data to generate said image data;
generating additional data based on said received code data; and
synthesizing said additional data with said image data and outputting said
synthesized data.

35. (Original) An image data processing method in accordance with claim 34,
wherein said generating step includes: obtaining coordinate information from said
received code data and generating additional data based on said coordinate information.

36. (Original) An image data processing method as claimed in claim 35,
wherein said code data is outline font data representing character contours.
